Answer

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRIMATI JAYAWANTI MEHTA)

(a) & (b) : State-wise entitlement viz-a-viz actual drawal from central sector generating stations in various regions during the years 2000-01 and 2001-02 is given in Annexure. Andhra Pradesh had drawn 9574 million units (MU) and 9784 million unitsagainst its entitlement of 9133 million units and 9578 million units during 2000-01 and 2001-02 respectively.

(c) : Allocation from Central Sector Stations to the States alone is generally notsufficient to meet the growing demand of electricity. Generation by the States themselves and purchase of power from private producers and other States make up the balance quantity.

(d) & (e) : Requests are received from time to time from deficit states for allocation of additional power from unallocated quota of Central sector generating stations in the region. The allocation to states from unallocated quota of central sector stations is reviewed and revised from time to time keeping in view the relative energy shortages, emergency/seasonal requirement, including that of the agricultural sector and also keeping in view the request of States. Eastern Region is surplus in power and the totalunallocated power of Central Sector Stations in Eastern Region has been allocated to theneedy states in Northern, Western, Southern and North Eastern Regions.
